

GWCAC Partnerships

The GWCAC is administered by Colonial Behavioral Health on behalf of the Williamsburg Community Health Foundation's (WCHF) Children's Behavioral Health Initiative.

The Children's Behavioral Health Initiative's mission is to strengthen behavioral health services for children and adolescents and their families in the greater Williamsburg region.

The GWCAC is made possible by grant funding from the WCHF.

Mission Statement

The mission of Colonial Behavioral Health, the local Community Services Board, is to facilitate opportunities for recovery, resiliency and wellness to individuals and families affected by mental illness, intellectual disabilities and substance use disorders. Through an array of strategies and collaborative partnerships with local and regional providers, CBH will demonstrate a commitment to quality assessment, prevention, treatment and habilitation through best practice methodology for the citizens of James City County, City of Poquoson, City of Williamsburg and York County.

GWACAC

Greater Williamsburg Child Assessment Center

The GWACAC serves as the gateway to community behavioral health services for children, adolescents and their families in the Williamsburg region. The GWACAC provides assessment and referral services to area providers and supports based on identified needs.

Assessments Offered:

- Psychosocial
- ADHD
- Anxiety
- Depression
- Intelligence
- Parenting
- Community Support
- Developmental Screenings
- Pervasive Developmental Disorders
- Eating Disorders

Assessment Process

The assessment process begins with a face-to-face meeting with our licensed therapist. Upon completion, recommendations are given to the family and consumer choice is offered with the listing of three area providers that can meet their treatment needs. Once a provider is chosen, all efforts are made to create a smooth transition in setting up appointment dates and times. With consent, follow-up calls are made to ensure that treatment recommendations are followed and to evaluate the family's satisfaction with the services they are receiving.

Fees

Consumer services are provided on a fee for service basis. Most insurance plans and HMOs are accepted, including Medicaid. Persons without insurance coverage are charged according to ability to pay, based on income and dependents. No one will be denied services because they are unable to pay.

Network of Care Website

The GWACAC Network of Care website was created to serve as a single point of access to address the behavioral health needs of children and their families. Our service directory has over 450 listings of area programs and services that cover such topics as:

- Counseling Services
- Support Groups
- Child Care
- Housing
- Food/Clothing
- Transportation
- Recreational Activities
- And much, much more
